

Public Hall, Lodi, California. Jan. 4, 1911.

In adjourned regular session of the Board of Trustees of the City of Lodi, the following Trustees being present: J.M. Blodgett, F.O. Hale, C.A. Rich and L. Villinger. Absent: G.E. Lawrence. Trustee Hale presiding.

The minutes of the previous meeting, not having been written up were not read.

A.J. Larson was granted a permit to construct a frame building on lot 4 block 21.

F.J. Lease offered the City the dirt from his basement for \$.30 per yard and cost of excavating. No action.

Engineer Fink reported that the M.E. Church people could get to the sewer and water pipes through Dr. Cloman's property in a distance of about 130 feet, making an average of about 45 feet for each of the three parties. As many parties have to go much farther, it was

the sense of the Board that proposition of Dr. Colman should be accepted, and that the Greenwell and M. E. Church properties be connected through Dr. Colman's property, and that they would not be allowed to lay pipe in the street.

Engineer Fink reported that the White matter was settled.

A warrant was ordered drawn in favor of F. F. Ireby for \$23.37 for drayage and one for \$14.30 in favor of William Lupton for blacksmithing.

The matter of wages for street work was taken up and it appeared to be the sense of the Board that the following be the wages: \$2.00 per day for man; \$2.00 per day for team; \$1.50 per day for each additional span of horses.

Upon motion the Board adjourned till Jan. 9th., 1911, at the usual hour and place.

Attest:

City Clerk.
